

Automatic Nursing Machine

Designed to provide a constant, uniform, and easily accessible supply of milk replacer/formula for various domestic animals such as lambs and goat kids. The machine automatically mixes small quantities of powdered milk replacer/formula with warm water at a desired concentration.

Makes 1 pint of fresh warm milk on demand

Milk replacer hopper

- Fits one 25lb bag of milk replacer/formula
- Transfers replacer/formula into the auger and then into the mixing bowl. Two wipers move powder to prevent caking.

Water control knob

- Adjust the water up or down to reach required concentration

Milk mixing bowl

- Mixes hot water and milk replacer on demand

Control panel

- Simple ON/OFF operation
- Powder/Rinse

- Thermostat: adjust to desired temperature

Specifications

Capacity	40 lambs or kids
Number of nipples	4 for lambs and kids
Capacity of hopper	25lbs (9kg)
Capacity of water tank	2gal. (8 l)
Volts	110 volts, 1500 watts
Power requirement	15 amps
Dimension	17 x 19 x 28 inch (43 x 48 x 70 cm)

Kid/lamb nipple panels

- Each panel consists of two recessed cavities and two rubber nipples
- Can be separated for individual feeding

MODEL:

OVIS-40
