

Alpaca Complete Life

Mazuri® Alpaca Complete Life is a nutrient-dense formula to support the complete life of growing, breeding, Suri, or senior alpacas, or for weight management. This diet is designed to be fed with free-choice grass hay and/or pasture.

Features and Benefits

- **Calcium and phosphorus concentrations appropriate for breeding alpacas.**
- **Beet pulp and molasses** to support palatability.
- **Contains probiotics** to support gastrointestinal and immune health.
- **Antioxidants, including selenium yeast**, to support health and performance.
- **Contains beet pulp, healthy starch levels**, and additional ingredients **to support gastric health and proper gastrointestinal pH.**
- **Enhanced mineral-amino acid complexes** for optimal mineral availability.
- **Contains flaxseed** – a source of omega-3 fatty acids.
- **Formulated by Ph.D Nutritionists**, in collaboration with **leading alpaca specialist Dr. Norm Evans, DVM.**
- **Manufactured in an ionophore-free facility.**
- **Small-sized pellet to aid consumption.**

Product Form & Packaging

Catalog #3005471-205 | Pellet | 5/32" x 1/8" | 40 lb. (18.14 kg) net weight woven poly bag

Guaranteed Analysis

Crude protein not less than	14.00%	Phosphorus not less than	1.50%
Crude fat not less than.....	6.00%	Salt not less than.....	1.00%
Crude fiber not more than.....	18.00%	Salt not more than.....	1.50%
Dietary starch not more than.....	8.00%	Sodium not more than.....	0.80%
Ash not more than	13.00%	Omega-3 fatty acids not less than	0.75%
Calcium not less than	2.00%	Selenium not less than.....	1.50 ppm
Calcium not more than	2.50%	Selenium not more than.....	1.80 ppm
Total Microorganisms not less than	270,000 CFU/g		

(Lactobacillus acidophilus, Lactobacillus casei, Bifidobacterium thermophilum, Enterococcus faecium)*

*Contains a source of live (viable) naturally occurring microorganisms.

Ingredients

Ground Soybean Hulls, Wheat Middlings, Dehulled Soybean Meal, Dicalcium Phosphate, Dried Plain Beet Pulp, Cane Molasses, Soybean Oil, Lignin Sulfonate, Ground Flaxseed, Yeast Culture, Calcium Carbonate, Salt, DL-Alpha-Tocopherol Acetate (Vitamin E), Thiamine Mononitrate, Magnesium Oxide, Calcium Propionate (a preservative), Zinc Methionine Complex, Seaweed-Derived Calcium, Cholecalciferol (Vitamin D3), Artificial Flavor, Zinc Oxide, Manganese Sulfate, Dried Lactobacillus acidophilus Fermentation Product, Dried Lactobacillus casei Fermentation Product, Dried Bifidobacterium thermophilum Fermentation Product, Vitamin A Acetate, Choline Chloride, Nicotinic Acid, Dried Enterococcus faecium Fermentation Product, Selenium Yeast, L-Ascorbyl-2-Polyphosphate (Vitamin C), Pyridoxine Hydrochloride, d-Alpha Tocopheryl Acetate (Vitamin E), Preserved with Mixed Tocopherols, Rosemary Extract, Calcium Iodate, Manganous Oxide, Folic Acid, Citric Acid (a Preservative), Calcium Pantothenate, Ferrous Carbonate, Riboflavin Supplement, Copper Sulfate, Biotin, Vitamin B12 Supplement, Zinc Sulfate, Zinc Amino Acid Complex, Sodium Selenite, Manganese Amino Acid Complex, Copper Amino Acid Complex, Cobalt Glucoheptonate, Cobalt Carbonate.

Feeding Directions

- **To be fed with free-choice grass hay or pasture. Feed alpacas 0.5% to 1% of their body weight daily.**

- These feeding amounts are guidelines and should be adjusted based on environmental temperatures, body condition, level of activity or fleece production, and life stage; consult a nutritionist or veterinarian for guidance for individual animal needs.
 - For females in early gestation, breeding males, or senior animals, feed at 0.5% of body weight (see table below).
 - For **late-gestation** females, consider feeding 25% more **Mazuri® Alpaca Complete Life**.
 - For **lactating females**, consider feeding 25% to 50% more **Mazuri® Alpaca Complete Life**.
 - For **weight management**, start animals at 0.5% of body weight (lower end of amounts in chart), and, if body weight does not begin to increase in 4 – 6 weeks, increase in increments (25% additional food at a time), up to 1% of body weight.

Feeding Guide*

Cria weight	Adult weight	Daily Amount*	Cups
25 lbs (11 kg)		0.125 - 0.25 lbs (55 - 110 g)	1/3 - 2/3
50 lbs (23 kg)		0.25 - 0.5 lbs (115 - 230 g)	2/3 - 1 1/3
75 lbs (35 kg)	75 lbs (35 kg)	0.375 - 0.75 lbs (175 - 350 g)	1 - 2
100 lbs (45 kg)	100 lbs (45 kg)	0.5 - 1 lbs (225 - 450 g)	1 1/4 - 2 1/2
	150 lbs (70 kg)	0.75 - 1.5 lbs (350 - 700 g)	2 - 4
	200 lbs (90 kg)	1 - 2 lb (450 - 900 g)	2 1/2 - 5

*Suggested amounts; adjust to individual animal needs.

- Always provide plenty of fresh, clean water.
- Thoroughly wash feed and water bowls on a regular basis. It is always good practice to wash hands thoroughly after feeding and/or handling animals.
- This diet is not for human consumption.

Caution: Follow label directions: Feeding added selenium at levels in excess of 0.3 ppm in total diet is prohibited.

Do not feed to sheep due to high concentrations of supplemental copper.

Storage Conditions

For best results, reseal the bag between uses or store contents of open paper sack in container with sealing lid. Store in a cool (75°F/24°C or colder), dry (approximately 50% RH) location free from rodents and insects. Do not offer moldy or insect-infested feed to animals as it may result in illness, performance loss or death. Freezing will not harm the diet and may extend freshness. Use within 1 year of bag manufacturing or "Best if Used By" date.
